Society Staples is a social enterprise that was founded on the vision of an inclusive future and equal opportunities for Persons with Disabilities (PWDs). Through team building workshops, community events and school programmes, Society Staples create conversations and shift people's perspective of PWDs and create avenues for individuals and organisations to contribute to the inclusive environment.

Social Intervention and Impact Created

Society Staples makes an impact by serving as a bridge between the disabled community and 'normal society' through the events they organise. In doing so, Society Staples aims to build capacity in their clients and partners to create real and lasting impact in the marginalised communities. Since incorporation in 2015, Society Staples have more than 10,000 participants in their events/programmes, and they have also engaged over 400 PWDs in sports and have trained 5 deaf facilitators for their events/programmes.

Business Model

Society Staples offers three services - team building workshops, community events and school programmes.

Project Scope

Society Staples hopes to raise its brand awareness as well as educate the public regarding the challenges faced by PWDs.
